CONNECTING MILITARY FAMILIES,  
COMMANDS AND K-12 SCHOOLS

# Navy School Liaisons Assist Families Through SEVEN CORE SERVICES

## 1 School Transition Services (PCS Cycle):

School Liaisons assist families with school transfers and help “level the playing field” for military children and youth.

## 2 Deployment Support:

School Liaisons connect educators with the military deployment support system to inform them about the cycles of deployment and the tools available to assist educators in working with military children.

## 3 Command, School & Community Communications:

School Liaisons serve as subject-matter experts for installation commanders on K-12 issues, helping to connect command, school and community resources.

## 4 Home School Linkage and Support:

School Liaisons assist military families by gathering and sharing information on home schooling issues, policies and legislation from local school districts; they help leverage military Child and Youth Program resources to support these families.

## 5 Partnerships in Education (PIE):

PIE creates a volunteer network of resources to support installation and community members who have a vested interest in the success of all youth.

## 6 Post-Secondary Preparations:

School Liaisons leverage installation and school resources to provide graduating military students with access to post-secondary information and opportunities.

## 7 Special Needs System Navigation:

School Liaisons provide information about installation and community programs and services, make referrals to the Exceptional Family Member Program (EFMP) and offer assistance in navigating the administrative systems within local education agencies.

# DID YOU KNOW?

School transition and deployment support is a Navy readiness and retention issue. The Navy benefits from having Sailors who are able to focus on their duties, whether ashore or deployed.

- Navy families move their children an average of every 2.9 years.
- Children of military personnel attend up to nine different schools by graduation.
- Military families are reluctant to disrupt high school youth in their senior year.
- Deployments can impact educational outcomes of children.
- Many families decide to “separate geographically” to keep children in their current school.
